NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Annual Report 2012-13

NOTE -1 : SIGNIFICANT ACCOUNTING POLICIES

i) **Accounting Conventions :**

The consolidated financial statements are prepared under historical cost conventions and as a going concern basis following the accrual basis of accounting and in accordance with the generally accepted accounting principles (GAAP) in India and in compliance with the provisions of the Companies Act, 1956.

ii) **Principles of Consolidation :**

The accounts of subsidiaries have been consolidated with the parent Company's accounts in accordance with Accounting Standard-21 on "Consolidated Financial Statements" as notified under the Companies (Accounting Standard) Rules, 2006.

Goodwill/Capital Reserve represent the difference between the cost of control in the subsidiaries over the book value of net assets at the time of acquisition of control in the subsidiaries.

Consolidated Financial Statements have been made by adding together like items of assets, liabilities, income and expenses. The inter-company transactions and unrealized profits/(losses) thereon have been eliminated.

Foreign subsidiaries are considered as non-integral foreign operation as per Accounting Standard-11, on "The effect of Changes in Foreign Exchange Rates". The financial statements of the same have been converted using the following methods:

Components of Statement of Profit & Loss except opening & closing stock have been converted using monthly average rate of the reported period.

Components of Balance Sheet have been converted using the rates at the balance sheet date, except balance of Statement of Profit & Loss. Resultant foreign exchange translation difference has been recognized as "Foreign Currency Translation Reserve".

iii) **Use of Estimates :**

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities for the period under review and disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in the current and future periods.

iv) **Fixed Assets :**

Fixed assets are stated at cost. The cost of fixed assets comprises its purchase price, cost of construction, cost of borrowings and other cost directly attributable to bring the assets at its working conditions and location for its intended use.

v) **Depreciation :**

Depreciation on fixed assets of parent Company is provided on straight-line method (SLM) at the rates and in the manner prescribed in Schedule XIV of the Companies Act, 1956.

vi) Investments :

Long term Investments are stated at cost. Provision is made when diminution in the value of such investments is considered permanent in nature. Current Investments are valued at lower of cost and market/fair value.

vii) Inventories :

Inventories are valued at cost or net realizable value, whichever is lower. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and conditions. Cost is determined on FIFO basis. Any shortage / surplus found on physical verification of inventories are adjusted in the accounts as found appropriate.

viii) Revenue Recognition :

Revenue is recognized to the extent, it is probable that the economic benefits will flow to the Company and it can be reliably measured. Dividend Income is recognized when right to receive the payment is established. Interest Income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable.

ix) Foreign Exchange Transactions :

Transactions involving foreign exchange are normally recorded at the exchange rates prevailing on the date of the transactions. Exchange differences arising on settlement of transactions or on reporting monetary items of the Company at the rate different from those at which they were initially recorded during the period, or reported in previous financial statement, are recognized as income or expenses in the period in which they arise except in case where they relate to acquisition of fixed assets, in which case they are adjusted to the carrying cost of such assets.

x) Taxes on Income :

Provision for current tax is made after taking into consideration benefits admissible under the provisions of the Income Tax Act, 1961.

Deferred Tax, resulting from timing difference between taxable and accounting income, is accounted for using the tax rates and laws that are enacted or substantively enacted as on the balance sheet date. Deferred Tax assets are recognized only when there is a reasonable certainty that the same will be realized and are reviewed for the appropriateness of their carrying values at each balance sheet date.

Tax on Distributed Profit Payable is in accordance with the provision of Section 115-O of the Income Tax Act, 1961 and in accordance with the guidance note on 'Accounting for Corporate Dividend Tax'.

Foreign subsidiaries recognize tax liabilities and assets as per their local regulations & laws.

Annual Report 2012-13

xii) Miscellaneous Expenditure :

Preliminary and share/debenture issue expenses are amortized over a period of five years.

xiii) Impairment of assets :

At each reporting date, the Company reviews the carrying values of its tangible and intangible assets to assess whether there is any indication of any asset being impaired. An asset is treated as impaired when the carrying value of asset exceeds its recoverable value. An impairment loss is charged to Statement of Profit and Loss in the period in which an asset is identified as impaired. The impairment loss, if any, in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

xiv) Earning per share (EPS) :

The basic earning per share ("EPS") is computed by dividing the net profit after tax for the year by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earning per share, net profit after tax for the year and the weighted average number of shares outstanding during the year are adjusted with the effects of all dilutive potential equity shares. The dilutive potential equity shares are deemed to have been converted as at the beginning of the year, unless they have been issued at a later date.

xv) Prior Period Adjustments, Extra-ordinary Items and Changes in Accounting Policies :

Prior period adjustments, extraordinary items and changes in accounting policies, if any having material impact on the current financial affairs of the Company is disclosed.

xvi) Provisions, Contingent Liabilities & Contingent Assets :

Provision is made when there is a legal or constructive obligation as a result of past event and it is possible that a future sacrifice of economic benefits will be required to settle the obligation. Contingent Liabilities are not recognized but are disclosed by way of notes. Contingent Assets are neither recognized nor disclosed in the financial statements.
