MANAGEMENT DISCUSSIONS AND ANALYSIS REPORT FOR THE PERIOD ENDED 31ST MARCH, 2015.

The Company is engaged in trading of coal and coke. Metallurgical Coke, being a derivative of coking coal is the main source of heat and is also the reducing agent required to facilitate the conversion of metallurgical ores into metal during the smelting process. Coke is mainly consumed in Steel industry, Cement industry, furnaces for small castings and gas producers among others

OPPORTUNITIES & THREATS

Thrust on development of infrastructure and manufacturing by the current government is likely to increase steel demand in the country. Coking Coal and Iron Ore are prime ingredients for production of steel. Hence, it can be understood that the demand for coking coal is due to improve in the coming years subject to favorable impetus from the government. Coke is also extensively used in the Foundries, Ferro Alloys, Steel and Chemicals industries. The Company foresees good scope in coke business.

Global Demand for coking coal is expected to increase in the coming years though there is a dearth in demand at present. This will provide an excellent opportunity for the Company to grow. Although, fluctuation in demand in global steel industry or increase in use of other mode of steel Industry ie. Electric ARC furnace by steel industry or indiscriminate imports from China might act as a threat to the met coke Industry in India.

RISKS & CONCERNS

The prospects of the met coke industry are correlated with the prospects of the steel industry. Any adverse market conditions like global recession, eurozone crisis and severe competition from old and established players are the main concerns of the Company. The latest issue of dumping of met coke by Chinese manufacturers is a concern for the Company.

OUTLOOK

Though the current outlook of coke industry is weak due to weak economic environment, the demand of coke in the year to come is expected to increase due to continuing Industrialization and growth in the steel sector in the country. The biggest opportunity lies in the growing middle class in India and its burgeoning demand. Also indiscriminate dumping by Chinese coke manufacturers is a cause of grave concern.

Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Holding Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Holding Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Holding Company's Directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

NOTE -1 : SIGNIFICANT ACCOUNTING POLICIES**i) Accounting Conventions :**

The consolidated financial statements are prepared under historical cost conventions and as a going concern basis following the accrual basis of accounting and in accordance with the generally accepted accounting principles (GAAP) in India and in compliance with the provisions of the Companies Act, 2013.

ii) Principles of Consolidation:

The accounts of subsidiary have been consolidated with the parent Company's accounts in accordance with Accounting Standard-21 on "Consolidated Financial Statements" as specified in the Companies (Accounts) Rules, 2014.

Goodwill/Capital Reserve represent the difference between the cost of control in the subsidiary over the book value of net assets at the time of acquisition of control in the subsidiary.

Consolidated Financial Statements have been made by adding together like items of assets, liabilities, income and expenses. The inter-company transactions and unrealized profits/ (losses) thereon have been eliminated.

Foreign subsidiary are considered as non-integral foreign operation as per Accounting Standard-11, on "The effect of Changes in Foreign Exchange Rates". The financial statements of the same have been converted using the following methods:

Components of Statement of Profit & Loss except opening & closing stock have been converted using monthly average rate of the reported period.

Components of Balance Sheet have been converted using the rates at the balance sheet date, except balance of Statement of Profit & Loss. Resultant foreign exchange translation difference has been recognized as "Foreign Currency Translation Reserve".

iii) Use of Estimates:

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities for the period under review and disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in the current and future periods.

iv) Fixed Assets:

Fixed assets are stated at cost. The cost of fixed assets comprises its purchase price, cost of construction, cost of borrowings and other cost directly attributable to bring the assets at its working conditions and location for its intended use.

v) Depreciation:

Depreciation on fixed assets is provided on useful life of the assets and in the manner as prescribed in Part-C of Schedule II of the companies Act, 2013.

vi) Investments:

Long term Investments are stated at cost. Provision is made when diminution in the value of such investments is considered permanent in nature. Current Investments are valued at lower of cost and market/fair value.

vii) Inventories :

Inventories are valued at cost or net realizable value, whichever is lower. Cost includes cost of purchase, cost of conversion and other costs incurred in bringing the inventories to their present location and conditions. Cost is determined on FIFO basis. Any shortage / excess found on physical verification of inventories are adjusted in the accounts as found appropriate.

viii) Revenue Recognition:

Revenue is recognized to the extent, it is probable that the economic benefits will flow to the Company and it can be reliably measured. Dividend Income is recognized when right to receive the payment is established. Interest Income is recognized on time proportion basis taking into account the amount outstanding and the rate applicable.

ix) Foreign Exchange Transactions:

Transactions involving foreign exchange are normally recorded at the exchange rates prevailing on the date of the transactions. Exchange differences arising on settlement of transactions or on reporting monetary items of the Company at the rate different from those at which they were initially recorded during the period, or reported in previous financial statement, are recognized as income or expenses in the period in which they arise except in case where they relate to acquisition of fixed assets, in which case they are adjusted to the carrying cost of such assets.

x) Taxes on Income :

Provision for current tax is made after taking into consideration benefits admissible under the provisions of the Income Tax Act, 1961.

Deferred Tax, resulting from timing difference between taxable and accounting income, is accounted for using the tax rates and laws that are enacted or substantively enacted as on the balance sheet date. Deferred Tax assets are recognized only when there is a reasonable certainty that the same will be realized and are reviewed for the appropriateness of their carrying values at each balance sheet date.

Tax on Distributed Profit Payable is in accordance with the provision of Section 115-O of the Income Tax Act, 1961 and in accordance with the guidance note on 'Accounting for Corporate Dividend Tax'.

Foreign subsidiaries recognize tax liabilities and assets as per their local regulations & laws.

xi) Employee's short term & Post employment benefits:

Employee benefits of short-term nature are recognized as expense as and when it accrues. Post employment benefits are recognized as expenses on accrual basis at year end.

xii) Miscellaneous Expenditure:

Preliminary and share/debenture issue expenses are amortized over a period of five years.

xiii) Impairment of assets :

At each reporting date, the Company reviews the carrying values of its tangible and intangible assets to assess whether there is any indication of any asset being impaired. An asset is treated as impaired when the carrying value of asset exceeds its recoverable value. An impairment loss is charged to Statement of Profit and Loss in the period in which an asset is identified as impaired. The impairment loss, if any, in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

xiv) Earning per share (EPS):

The basic earning per share ("EPS") is computed by dividing the net profit after tax for the period by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earning per share, net profit after tax for the period and the weighted average number of shares outstanding during the period are adjusted with the effects of all dilutive potential equity shares. The dilutive potential equity shares are deemed to have been converted as at the beginning of the period, unless they have been issued at a later date.

xv) Prior Period Adjustments, Extra-ordinary Items and Changes in Accounting Policies:

Prior period adjustments, extraordinary items and changes in accounting policies, if any having material impact on the current financial affairs of the Company is disclosed.

xvi) Provisions, Contingent Liabilities & Contingent Assets:

Provision is made when there is a legal or constructive obligation as a result of past event and it is possible that a future sacrifice of economic benefits will be required to settle the obligation. Contingent Liabilities are not recognized but are disclosed by way of notes. Contingent Assets are neither recognized nor disclosed in the financial statements.
